

Early Warning[®] Identity Chek[®] Service Alerts

In 2021, a staggering 15 million consumers were victimized by identity fraud, **resulting in \$24 billion in fraud losses**.¹ Identity theft protection service providers looking to win market share must find ways to better protect consumers' personally identifiable Information against identity theft and account takeover. Identity Chek® Service Alerts leverages the National Shared DatabaseSM for unique visibility into banking data to generate consumer alerts on a range of banking activities, including:

- New deposit account applications and openings
- Changes made to deposit account holder's personal information

financial institution.

• New signers added to a depositor's account

How it works in real time²
